

Train Time: Sight and Sounds Around Me

Videos

“Folks, we’ll be under way in a moment or two.”

We are moving away from the intersection.

Why is the train blowing its whistle?

The bridge is rotating so the boat can pass through the opening.

“Clackety clack, clackety clack,” go the rails.

The train is taking the logs to the sawmill.

The train went by fast.

He is a fireman.

They are getting off the train.

He is filling the tender with water.

It is going around the bend.

The locomotive is slowly moving along the rails.

The brakeman switched the track.

The train is going to leave the station.

The long train emerged from the tunnel.

The crossing gate is going down.

Puffs of steam are coming from the locomotive.

Are there eight cars on this train?

The bell was ringing when the train came into the station.

The light rail train is going into the city.

It is raining very hard.

Toot toot, here comes the little train.

The steam locomotive is coming out of the forest.

The old steam engine is puffing steam.

Watch closely! The train will come out of the tunnel.

This is a model train display.

Here comes the “Max”, the light rail train.

He stepped off the train.

We are passing the little train.

The steel rails move under the weight of the heavy train.

He is greasing the gears before the train leaves.

It went under the bridge.

The Zooliner zoomed by.
